Dear Examiner:

Applicant acknowledges with appreciation the Examiner's Statement of Reasons for Allowance. Applicant notes, however, that such statement of reasons for allowance appears to reflect only one of the patentable features for Claim 96, and similar claims. Thus, the patentability of all other claims is assumed to be based upon the features as set forth in these other claims, and that such claims meet all criteria for patentability under 35 U.S.C. §101, §102, §103 and §112.

As such, Applicants wish to clarify that for all other claims not explicitly identified by the Examiner, it is believed the Examiner's reasons for allowance is that the

features as set forth in such claims define an invention that is free of the prior art and that complies with all 35 U.S.C. §112 requirements.

As is clear from MPEP 1302.14,

“The statement [of reasons for allowance] is not intended to necessarily state all the reasons for allowance or all the details why claims are allowed and should not be written to specifically or impliedly state that all the reasons for allowance are set forth.”

Respectfully submitted,  
SHERIDAN ROSS P.C.
